Encorra

The innovative corrugator

Machine description

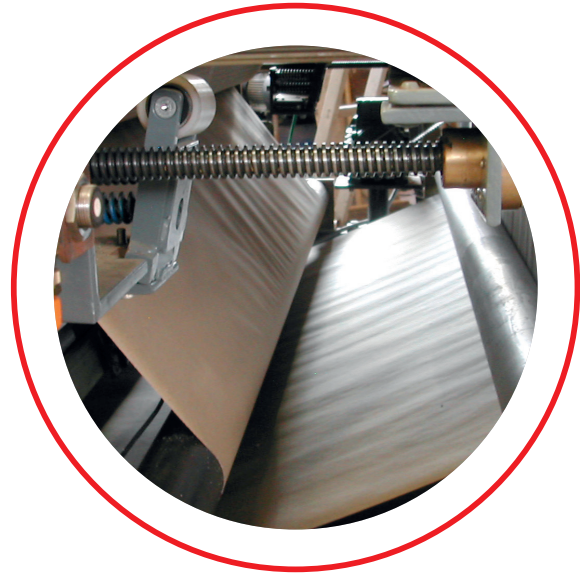

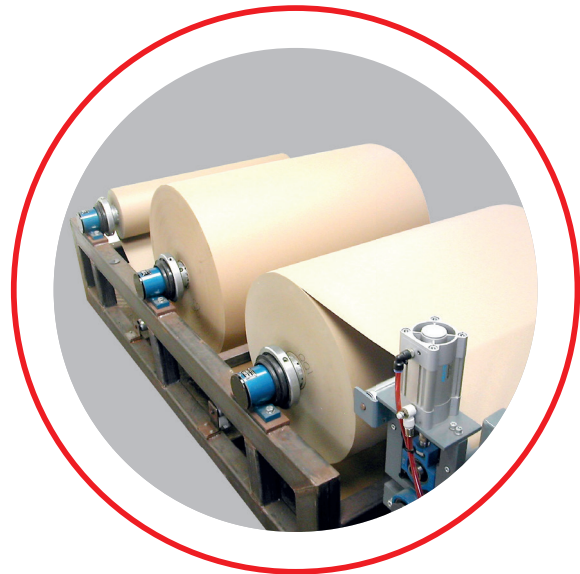

- Machine for short-run production of corrugated board on demand
- Produces corrugated board without steam
- Production without steam allows processing of special papers (waterproof, metallised, clay coated, siliconized or non-slip) into corrugated board without damaging the coating
- Is only a fraction of the size of a conventional corrugator with a footprint of only 10 x 2 m
- Processing of pre-print paper
- Longitudinal and cross cutter
- Ideal for small batches
- Compact & space saving
- Saves storage capacity
- Flexible & economical production
- Touch screen operation: With its user-friendly touch screen control panel, an operator is able to operate the machine after only one day of training

Options

- Rewind station (open shaft)

Technical specifications

Working width	1,20 m
Dimensions	10 x 2 x 1,85 m depending on the version
Height outlet	1,2 m, depending on the version
Speed	20 m/min
Material	A, B, C and S flute
Weight	3200 kg
Power supply	400 V, 50 Hz, 3~
Power consumption	max. 35 kW
Compressed air supply	6 bar

Make your business more flexible and reduce your costs by producing your own corrugated board whenever you need it!
